### AUTO ASSOCIATION

#### GLENDALE ORGANIZATION MEETS, PUTS ON MEMBER- SHIP CONTEST

The Glendale Automobile Association met last evening in the office of Bartlett & French, corner of Brand and Harvard. The meeting was called to order by Jesse E. Smith, President of the Association. There was present H. S. Mason, of Los Angeles, who is well up in Association work. He gave a very able address to the Glendale Association. H. A. Ungar, also of Los Angeles, was present and offered very valuable suggestions as to carrying on a successful organization. Chairman Smith implored those present to work hard before the next meeting to get members. Max Green and Roy Hinchcliffe each volunteered to get a greater number of members than the other, and the loser is to deposit \$1.00 with the treasurer. A special drive is to be made next Tuesday and Wednesday forenoon. A special meeting will be held Thursday evening, at which time a report of the members enrolled will be received and other important business transacted.

Attention was called to the blanks that have been sent out under authority of the City of Glendale, asking that they be properly filled out and returned within a limited number of days. This request is made by the city in compliance with fire ordinance, which requires that garage buildings be constructed in accordance with specifications defined in the ordinance. A committee of three was appointed to investigate as to the construction placed upon the reading of the ordinance. The committee will report at the meeting next Thursday evening.

Among those in attendance at last evening's meeting were Bahme Bros., W. E. Anderson, Roy Hinchcliffe, Wm. Hooper, Chambers and Felts, L. Bartlett, D. J. Barton, W. A. Smith, Max Green, Jesse E. Smith, Thos. Smith, Jos. G. Calaldo, H. D. Hartwick.

#### GROCERY CHANGE

R. W. Norton of Venice has purchased the Nash Grocery at 244 North Brand boulevard and will take possession Saturday morning. The firm name will be R. W. Norton & Co. Mr. Norton is an experienced grocerman. He intends to make extensive changes in the store and in the business. His family consists of a wife and child and they will occupy the apartment in the rear of the store until a suitable house can be found.

### EXTENDED TRIP

#### S. C. MARANVILLE AND FAMILY TOUR STATE IN AUTO

The pioneer photographer of Glendale, S. C. Maranville, who with his family, has just returned from a prolonged camping trip in the High Sierras and other points has a fine collection of original photos to commemorate his outing of eight weeks, and a long string of—not fish, but stories of real life.

"On leaving Glendale late one evening," he said, "our first stop was near Castoc, where we experienced a night under the stars and breakfast in the open. We bowled merrily along on our early way over the ridge route until nearly through the Cajon Pass when we drove into a deluge of rain. Though it was some time after sunrise, it was so dark that all machines burned their lights and some stopped by the roadside till the rain ceased. However we were on our way so we decided to keep going. As we drew near the end of the Pass and could look out over the valley it seemed as if we were under a huge black umbrella suspended two or three hundred feet above the ground, and extending over the valley for the same number of miles, underneath which we could see the long, straight road into Bakersfield. The sun was now shining in all its glory and before many minutes we were out into its warming rays which in a short time dried our damp clothing. Every stop for gasoline revealed prices above those of Glendale.

"On our second night out, Tulare welcomed us with a free campground on which we found water, rest rooms and shower baths. Fresno, with its raisins and figs was next passed and then we reached the foot of the Sierras where we rested and

### TRUSTEES' MEETING

#### PROVIDE FOR EDUCATIONAL CAMPAIGN ON SEWER QUESTION

The Board assembled at 8 o'clock p. m., August 5, 1920. Trustees Mrs. Bartlett, Henry, Robinson, Shaw and Stephenson were present. The minutes of the regular meeting of July 29, 1920, and of the adjourned meeting of August 2, 1920, were read and corrections ordered to be made on pages 123 and 125; in the first instance adding the words "for the protection of health, life and property" to the resolution in regard to doing certain work at the well on San Fernando Road, and on page 135 inserting the words "in the Glendale Evening News."

This being the date and time set for hearing of protests against the opening of Commercial street, the matter was called up and briefly discussed with the small number of citizens present, the protest being read by the Clerk. Motion of Trustee Bartlett was adopted continuing the

### PLAN FINE TRIP

#### BOURNES TO VISIT CALIFORNIA NORTH AND OREGON

B. F. Bourne will start Sunday or Monday, accompanied by his wife and two children and maybe his cousin, Everett Hitchcock, for a month's auto trip which will cover a good many hundreds of miles. Hartley Taylor of Eagle Rock will accompany them as far as Taylor's Salt Lakes, not far from Owens Lake, where he will join Bud Rose in a visit to the great salt works. The Bournes will visit Mammoth, Mono and Owens Lakes, go up over Tioga Pass to Yosemite, then to Lake Tahoe, stopping at many of these interesting points to camp out. They expect before their return to visit Mr. Bourne's uncle, Senator Jonathan Bourne, who lives near Portland, Oregon. On the return trip they will pass through Sacramento, Stockton and San Jose, San Francisco and possibly take the coast route home.

### WILL VISIT LASSEN

#### BAIRDS AND YOUNGS TO ENJOY HUNTING ON VOLCANO'S SLOPES

A. L. Baird and wife and Dr. and Mrs. T. C. Young leave Monday on a month's hunting trip, such as they took last year. They expect to reach Chester next Wednesday and there meet Reuben Gould, their Indian guide of last year, go with him to Westwood and buy their supplies. Returning to Chester they will drive 12 miles further in their machine then hike to the camping ground, 8 miles distant, while Reuben conveys the supplies by wagon. They camp at Grassy Lake, near Mt. Lassen, where the hunting is fine. The season for game opens the 15th. They have made arrangements ahead for all the gasoline they will need, so will not have that to worry over. They expect to be gone a month and shoot lots of game.

### FRUIT PARADISE

#### NEW RESIDENTS ATTRACTED BY WEALTH OF FRUIT IN YARDS

Glendale is not generally credited with being in the "fruit belt," but it is certainly very fortunately situated in this respect. While we have not great orchards of canning fruit to sell by the ton, there are enough small tracts and city lots set to various kinds of fruits to provide a continuous supply for every-day use all through the season. Just now we are favored with an abundance of peaches of many varieties, also plums, crabapples, grapes and melons. Householders who have had to depend on the forced melons from Imperial Valley, with their lack of the true cantaloupe flavor, always give a sigh of relief when the home grows come in, and now the supply in this line is unlimited. A new resident of Glendale remarked to the Evening News recently that one thing that attracted him to Glendale was the wealth of fruit trees, berry bushes and vines that are to be seen in nearly every yard.

### ENGLAND TO AID POLAND

#### BRITISH CABINET TAKES STEPS AMOUNTING TO DECLARATION OF WAR ON SOVIET GOVERNMENT

(Special Service to Glendale Evening News)  
LONDON, August 6.—It is semi-officially reported here that the cabinet has decided to take steps virtually amounting to war on Soviet Russia. The blockade will be re-established and munitions will be sent to Poland reports said.

Naval reports here today said the North Sea squadron will be ready for a blockade of Russia within twelve hours.

The Soviet reply to the British note was received today. Although its contents was not disclosed it is reported on good authority that the note states that Russia has a right to make a separate peace with Poland and she intends to do so; that Russia agrees to take part in the general peace conference at London but refuses to deal with representatives of border states; that the Soviet government will continue the drive against Warsaw until an armistice is signed.

Several newspapers today declared that the North Sea squadron has already been ordered to blockade Russia.

Arthur Henderson, labor leader, today telegraphed laborites urging a demonstration against entering into hostilities with Russia.

### SEVEN DEAD IN ILLINOIS TOWN RIOT

#### (Special Service to Glendale Evening News) PRISONERS SUSPECTED OF MURDER OF TWO BOYS ARE SPIRITED AWAY TO PREVENT LYNCHING

(Special Service to Glendale Evening News)  
WEST FRANKFORT, Ill., August 6.—With the arrival of 150 soldiers here today quiet reigns after last night's rioting. The troops are patrolling the streets.

Seven dead, 65 injured and most of the foreign section of the city a mass of glowing embers is the toll of the rioting which followed the finding of the bodies of two boys who had been murdered, yesterday. Three men suspected of murdering the boys when they threatened to divulge information in connection with a bank robbery were spirited away from the jail yesterday. The authorities feared the mob would lynch the prisoners.

### RIOTING IN DENVER

#### TWO KILLED IN UPRISING WHICH ACCOMPANIES STRIKE OF DENVER STREET CAR MEN

(Special Service to Glendale Evening News)  
DENVER, August 6.—Two hundred citizens today volunteered to aid the police to prevent further rioting which last night accompanied the Denver street car strike. Two persons were killed and 33 injured when strikers attacked the car barn and attempted to burn it. A veritable reign of terror took place when strikers and strike sympathizers roamed the streets wrecking street cars. The rioting followed comparative quiet when ten heavily screened cars were put in service. Union officials disclaim any responsibility for last night's uprising.

### RUSSIAN-AUSTRIAN ALLIANCE

#### MANY PROVISIONS OF TREATY SIGNED LAST MONTH ARE MENACE TO ALLIES IT IS SAID

(Special Service to Glendale Evening News)  
WASHINGTON, August 6.—Soviet Russia has made an alliance with Austria according to official advices received here. This alliance is believed to have great significance in connection with the Bolshevik offensive.

While the peace treaty which was signed last month ostensibly provides for the repatriation of war prisoners, other provisions constitute a menace to the allies, it is said. Among the provisions of the treaty are the following:

That Austria remain neutral in the event of war on Russia; that Austria pledges herself to prevent the shipment of war material through Austria for Poland; resumption of trade relations and the interchange of government representatives.

### DENOUNCE CANTU

#### FORMER ENSENADA OFFICIAL BRANDS GOVERNOR AS DICTATOR AND TYRANT

(Special Service to Glendale Evening News)  
SAN DIEGO, August 6.—David Zareta, former mayor of Ensenada and a fugitive here, declared today that Governor Cantu plans to exterminate his political rivals in Lower California. He denounced Cantu as a dictator and said he squandered \$10,000,000 of his people's money.

### CONFER ON POLISH SITUATION

(Special Service to Glendale Evening News)  
WASHINGTON, August 6.—President Wilson conferred nearly an hour this morning with Secretary Colby and Assistant Secretary Davis regarding the Polish crisis.

### HOME FROM DAKOTA

#### T. J. FORMICAN VISITS OLD FARM AND DISPOSES OF IT

T. J. Formican of 228 North Cedar arrived at home yesterday from a visit to the old home, Wahpeton, North Dakota. He owned a 240-acre farm near that city when he went but does so no longer as he disposed of it to good advantage while there. He says crops were moderately good in that section, the rye crop suffering some from rust, caused by too much rain at ripening time. He came back through Iowa, Nebraska and Kansas, great grain states and noted that wheat threshing was in full blast and much of it already done, while corn made a fine showing in most places. Farmers are somewhat apprehensive over falling prices of grain as they paid top wages for labor in putting in, cultivating and harvesting the wheat, oats, rye and will be forced to continue doing the same until the corn is in the cribs next winter.

#### REAL ESTATE SELLING FAST

Among the many changes of residence property in Glendale last week may be noted the following: Mary Wilson bought a 7-room residence and garage at 1131 East Elk avenue for \$4950; Mr. Nentwig of Los Angeles a new 5-room Colonial and garage at 1015 Florence Place for \$5200; J. G. Gates of Los Angeles similar property at 338 Burchett for \$5300; R. K. Snow of Glassell Park a 6-room furnished cottage and a garage at 609 North Maryland avenue for \$10,000. All these sales were made by the Edwards & Wilkey Co., E. P. Hayward, Glendale manager.

### NEW HOSPITAL

#### GROUND WILL BE BROKEN FOR BUILDING NEXT WEEK

All preliminary arrangements have been completed and work on the Glendale Research Hospital will begin next week according to A. L. Baird, a member of the Board of Directors who has been actively interested in the sale of stock.

At a recent meeting of the Board of Directors the contract for the building was let to Charles W. Kent & Son, the work to be completed in 150 working days. A resolution was passed changing the material to be used from stucco to hollow tile. The plumbing which is to be of the best china was purchased, and other arrangements completed. The ground has been paid for and practically all stock subscribed has been paid, returns have been made to the commissioner of corporations and all impounded moneys released. Very neat and artistic stock certificates are being mailed out.

A building inspector to work through a building committee will be appointed to look after the interests of all concerned, Mr. Baird stated.

Those who are familiar with modern hospital equipment say the Glendale Research Hospital is going to be one of the most conveniently arranged and best equipped hospitals in this section of the country. As stated above the construction will be of hollow tile. There will be forty rooms, all outside rooms, the modern laundry and kitchen being apart from the main building. The doors to all rooms will be wide enough so that when it is necessary to move a patient the bed which will be on six-inch rubber wheels may be wheeled through the door.

The call system which will be installed will be especially effective. When the patient presses a button beside the bed a light flashes on in the room, one in the hall and one in the head nurse's room. These lights can not be turned off at any place but in the patient's room.

There will be hot and cold water in every room and each room will have a telephone plug.

There will be an auxiliary lighting system for all halls, making for safety and complying with the state law. In case of fire or any trouble with the lighting system light from a special battery will be available.

The Board of Directors of the new hospital consists of A. L. Baird, Roy L. Kent, Herman Nelson, Dr. J. A. McNaughton and Spencer Robinson.

### INVALID SOLDIERS

#### MRS. G. CLAYTON TAKES THEM FOR ENTERTAINING AUTO RIDE

A treat much enjoyed by the Thornycroft soldiers was an auto ride through Griffith Park yesterday accorded three of them by Mrs. G. Clayton of 200 South Orange street. They visited the animals, took some pictures and drove on over the mountain, afterwards going to Mrs. Clayton's home where further entertainment was given them. Mrs. J. Dunn assisted in the entertaining. The ladies are planning on further treats for the boys who appreciate to the utmost any courtesies extended to them, and are very desirous of seeing all of Glendale's citizens do their bit to brighten the lives of these boys, some of whom are quite ill. Mrs. Clayton suggests auto rides, invitations to dinners, afternoons in the homes or the taking of fruit, ice cream, etc., to the boys where they can visit out on the grounds. Some of these soldiers have not had home privileges for years and it is quite pathetic to note how they are touched by a glimpse of real home life.

#### FROM CORN BELT

Frank Stadler and wife of Piper City, Ford county, Ill., came a few days ago to visit a nephew, Ernest Stadler, of 3418 South Brand. They live in the rich corn belt of Illinois, where the soil is so black and the mud gets so sticky. But the corn grows so fast these hot days that the sound it makes is often mistaken for the rustling of the breeze, as the Sucker State boosters put it. Mr. and Mrs. Stadler came expecting to stay only a few weeks, but they have already taken the California fever and say they will probably stay all winter. Their nephew says that means they will become permanent residents.

## VIRTUE GOES BEGGING

We do not believe that this old world of ours is wholly good and in fact, taking it upon its face, one would be tempted to believe that it is more nearly wholly bad.

Almost daily we read reports of vice investigation committees from all parts of the country, which seem to indicate that there are certain groups of self-righteous citizens who believe themselves divinely called to investigate the shortcomings of their fellows. They hire hordes of so-called experts in their different lines and then set these bloodhounds to the task of nosing out, charting, cataloging, classing and labeling every form of sin to which the term vice can be applied.

With many of these self-righteous persons this obsession of ferreting out others' shortcomings has become a vice in itself.

Why not turn the tables? Why not organize a virtue committee to ferret out the good? Would it not be interesting to read the report of such a commission? A committee of that kind would undoubtedly also have its effect in prompting others to acts of charity and right living.

But, virtue that craves recognition is not the kind that is wanted, someone says. Why not? What is the difference between vice suppressed because of fear of the law and virtue practiced because of love of recognition?

## TRUSTEES' MEETING

(Continued from Page 1)  
hearing until 8 o'clock p. m. August 15, 1920.

A communication was presented from the Standard Oil Company, requesting that the ordinance granting that company permission to construct a spur track be changed so as to conform with the requirements of the railroad company. On motion of Trustee Stephenson the City Attorney was directed to draw up an ordinance in accordance with the request.

Demands were presented and referred to the Finance Committee. The Finance Committee reported back demands approved and on motion of Trustee Stephenson warrants were ordered to be issued in payment of the same.

The City Clerk reported the receipt by the treasurer of the report of the General Pipe Line Company of California accompanied by check for \$258.37, being the 2 per cent on gross receipts required by the terms of the company's franchise.

A notice was read from the Railroad Commission of California of an adjourned hearing on the application of the Southern California Edison Company to September 16, 1920.

Reports were presented from the City Recorder and City Treasurer, both being referred to the Finance Committee.

A communication was read from the City Manager regarding the lot cleaning campaign. The communication stated that notices had been posted on approximately 2300 lots. It is probable that 1000 of these lots will be left for the city to clean and the City Manager estimated that the cost of the work will approximate \$3600.00, which amount will have to be carried by the city until such time as collections can be made from the property holders. The Manager recommended that the Street Superintendent be authorized to engage sufficient help and purchase the necessary tools and supplies for this work; the same to be paid for out of the general service fund. On motion of Trustee Henry the recommendation of the City Manager was adopted and approved.

On motion of Trustee Stephenson it was agreed to employ Auditor W. K. Mitchell to audit the city's books.

The Engineer of the Public Service Department made a statement in regard to the proposed new reservoir on Verdugo Road, pointing out in detail reductions which might be made in the cost of construction.

Trustee Henry presented an ordinance regulating the planting of trees on the public streets, roads, avenues, and public places of the City of Glendale, the same being read, and on motion laid over until the next regular meeting.

On motion of Trustee Stephenson it was ordered that the City Manager and Sanitary Engineer Olmsted be directed to make plans for an educational campaign in regard to the sewer question and submit the same to the Board as soon as convenient. On motion of Trustee Stephenson the plans of Sanitary Engineer Olmsted for temporary disposal of sewerage in the congested district of the city were approved and ordered to be filed.

On motion of Trustee Henry the City Manager was directed to obtain from the State Insurance Fund an estimate cost of carrying compensation insurance for the City of Glendale. He was also instructed to ascertain the cost of insurance on the city's automobiles.

## MURDER AND INSANITY

From Canada comes the story of a man who has confessed to the murder of his own mother years ago, for which crime his father hung. The first thought that comes to one's mind on reading a story like this is that the self-confessed murderer is insane.

Of course, he is insane, but is he any more insane than any other person who takes human life except in self-defense? No form of punishment yet devised has put an end to the crime of murder, but as human thought develops the conviction is growing that all murderers are insane.

A murderer should not be allowed to be at large, of course. Whether he should be put to death by law will probably be a subject for debate for decades to come.

## A \$25,000 COLLEGE PRESIDENT

Considerable comment has been occasioned by the fact that Dr. Burton, new president of the University of Michigan, is paid a salary of \$25,000 a year, more than double that received by the head of any similar institution in this country. That a prosperous bank or industrial concern should pay such a salary to its responsible directing officer would arouse no discussion anywhere. It would be regarded as a commonplace incident. Every large city also has its quota of lawyers and surgeons and engineers who earn annually at least the sum mentioned. But it is considered surprising that an educator should draw \$25,000 a year merely for directing the education of a few thousand American youth and maintaining the university "plant" in a high state of efficiency.

This mental attitude of the public is eloquent of its appraisal of the real value of academic education. It thinks nothing of the fact that a motion picture comedian should receive an income in the neighborhood of a million dollars a year, or that actors on the speaking stage and authors of best-selling novels should be lavishly remunerated. Among our popular newspaper cartoonists is one young man of limited art education who has been at the game only a few years and is now receiving \$26,000 a year—a far smaller sum than some of his colleagues of greater vogue are earning. But without undergoing an extensive ordeal of preparation and training for his work, he has leaped into an income larger than that enjoyed by any university professor in the country. And he is far from being a leader of his profession.

Michigan has set an example in showing that the college president is worthy of his hire that many another sister institution might follow to its own profit and to the benefit of the cause of higher education in the United States.

Good advice is harder to take than castor oil.

### ADOPTS RESOLUTION OPPOSING VAN DE WATER FOR CONGRESS

The following resolution was passed on August 2, 1920, by the Compton Post No. 152 American Legion of Compton, California, with instructions to secretary to tender same to newspapers and request its publication:

WHEREAS: The Long Beach Chamber of Commerce on May 27, 1920, voted their opposition to the "Soldiers' Compensation bill" (commonly known as the Bonus bill); and the Long Beach Press of that date, naming the thirteen directors present, among them Charles F. Van de Water, stated that "Mr. W. C. Shaw was the only director who voted 'no.'" The Long Beach Telegram of the same date stated that "on the vote in opposition to the bill, all voted 'aye' as favoring the motion, except Mr. Shaw, whose 'no' was the only one against it." And

WHEREAS: In the Long Beach Press account of the meeting Director P. E. Hatch (Mr. Hatch is president of the National Bank of Long Beach, of which institution Mr. Van de Water is a director) is quoted as declaring that: "the effect of a bond issue (for the Compensation Bill) at this time would be 'very ill advised.'" R. O. Baldwin, then a director, now on the secretarial staff of the Long Beach Chamber of Commerce, slurred the soldiers by stating that: "It would not be long until this money was spent in useless recreation, and then they would be right back where they are and we would have to take care of them anyway." Walter C. Shaw was the only director who was quoted as favoring the bill. Mr. Shaw stating: "Canada is doing a great deal more for her soldiers than we are doing." and

WHEREAS: Charles F. Van de

Water, on the day following, after the Long Beach Post, American Legion had voiced its vigorous opposition to the unpatriotic action of the Chamber of Commerce announced that (while admitting his presence at the director's meeting) he had not voted in opposition to the bill, stating that when the vote was taken he was occupied in the preparation of a report, and was not paying any attention to the discussion. With a bill of this importance to over 4,000,000 returned soldiers under discussion, with the acrimonious debate by the directors on the question of opposing the bill; with the evident desire of Mr. Hatch to carry out the Wall Street instructions, and to secure a unanimous vote in opposition to the bill; and with Mr. Hatch's known influence over Van de Water, it is rather difficult to understand Mr. Van de Water's attempted alibi; and

WHEREAS: On July 15, 1920, the day after the "hand picked" convention at Pasadena nominated (?) Van de Water for Congress; the Long Beach Chamber of Commerce (Van de Water at that time being the president) after a heated discussion, rescinded their action of May 27, 1920, opposing the bill; but even then did not go on record in favor of the "Soldiers' Compensation" bill. Now, therefore, be it

RESOLVED: By the Compton Post, No. 152, American Legion in regular meeting assembled at Compton, California, that we favor a Compensation Bill, with optional provisions of paid-up insurance, or public land grants, or public loans to soldiers, or in lieu of these a cash settlement. And be it further

RESOLVED: That we, the members of the American Legion regard the action (or lack of action) of Charles F. Van de Water as not only unpatriotic, but also un-American, and be it further

RESOLVED: That we, the members of the American Legion are unalterably opposed to the candidacy of Charles F. Van de Water, or any

other candidate who either votes against, or who, being present, fails to vote in favor of a bill of the importance of the "Soldiers' Compensation" Bill. And be it further

RESOLVED: That the secretary is hereby instructed to send a copy of this Resolution to every Post of the American Legion in Los Angeles county, and to the newspapers for publication.

Compton, Calif., August 2, 1920.

(Signed) CARL SHEPARD, Commander.

(Signed) R. L. ROSSIER, Secretary.

### SUGAR

Cane and beet acreages in this country are the largest in history. Foreign vessels are arriving at our ports with cargoes of from 2,000 to 3,000 tons of sugar. There is no doubt that the long-suffering consumers who permit themselves to hope that this may mean a slight reduction in the price are promptly assured by Dr. C. O. Townsend, sugar expert for the department of agriculture, that the more liberal supply will only make sugar easier to buy—it will not in the least affect the price.

Sugar offers an interesting example of the operation of the law of supply and demand. The sugar crop is large, the "heavy foreign demand" argument has been exploded, and the supply becomes plentiful—to remain so as long as a price 500 per cent above pre-war levels obtains.

What puzzles the average person is just how much sugar must be produced in excess of the normal demand before prices will descend from their present profiteering heights?

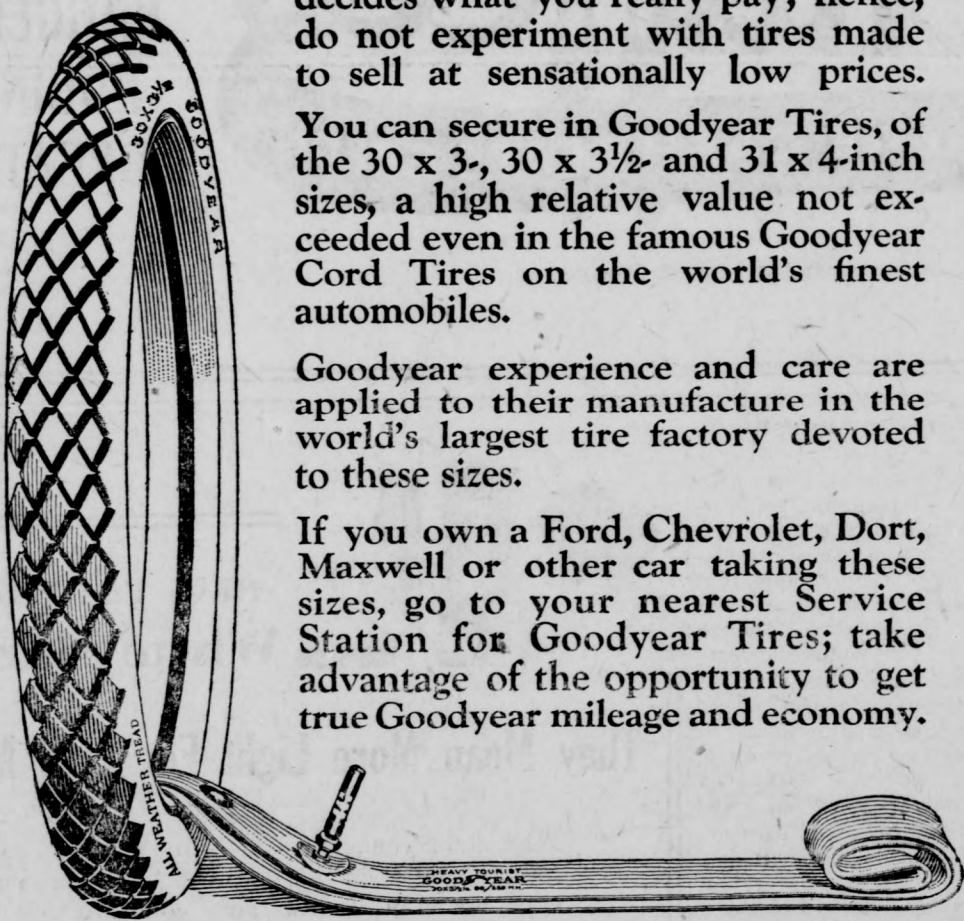

If German hangmen, striking for higher wages, were permitted to hang all who deserve it they would get in enough overtime to do very nicely.

## Ride Farther on Goodyear Tires in Your Small Car

It is tire performance, not price, that decides what you really pay; hence, do not experiment with tires made to sell at sensationally low prices.

You can secure in Goodyear Tires, of the 30 x 3-, 30 x 3½- and 31 x 4-inch sizes, a high relative value not exceeded even in the famous Goodyear Cord Tires on the world's finest automobiles.

Goodyear experience and care are applied to their manufacture in the world's largest tire factory devoted to these sizes.

If you own a Ford, Chevrolet, Dort, Maxwell or other car taking these sizes, go to your nearest Service Station for Goodyear Tires; take advantage of the opportunity to get true Goodyear mileage and economy.

### YOUR LIBERTY BONDS

A government bond is the promise of the government to pay, on a certain future date, the value of the bond in lawful money—that is, in gold or silver.

A government note, which the government issues through the national banks or the federal reserve banks, is the promise of the government to pay the value of the note on demand in lawful money—that is, in gold or silver.

Both the bond and the note are redeemable in the same kind of money. The bond bears interest, while the note does not. It would seem that the bond would be the preferable of the two, yet government notes are passing at par while government bonds are selling at a discount. Why?

Bonds are selling below par simply because people who hold them are willing to take less than par for them. A \$100 bond, for instance, should be, and is, worth just as much in any business transaction as a \$100 note. The trouble has been that most people were not accustomed to government bonds. Ignorant, timid bond holders have been taken advantage of by unscrupulous sharpers.

When congress meets again a law should speedily be passed providing adequate punishment for the man who defrauds the public in this manner. This ought to be done, although it must be admitted that by that time many of the bonds will have passed out of the hands of the original purchasers.

Bobby Leach, who got away with it once, is to go over Niagara Falls in a barrel, advertising a steel company's product and a concrete skull.

## WORD FROM CAMP

MRS. HAYES WRITES OF DOINGS AT G. A. R. ENCAMPMENT

Mrs. Juliana Hayes writes from Camp John Davis, Huntington Beach, that new visitors to the Annual Encampment of the G. A. R. and W. R. C. are coming in daily. In addition to those already named as attending from Glendale are A. W. Scudder, W. G. Collins, C. H. Clark, J. G. Kenyon, Thomas Hull, Mrs. Marilla Pratt, Mrs. Susie Ogier and two Boy Scouts, Assistant Bugler Rob Leach and Taylor Gibson.

While the program last night was supposed to be a campfire for the old veterans, several fine musical selections were given, some of them by the Santa Ana male quartette. Rev. C. R. Norton of Glendale made the talk of the evening. The two Boy Scouts lived up to their obligation by helping the ladies with their suit cases, and looking in on them frequently to see if any help can be given. Mr. and Mrs. Hammon returned home yesterday, but others arrived to take their place, Mrs. Hayes writes.

The program for the remaining days is as follows:

Friday, Aug. 6—2 p. m., ex-prisoners of war. Evening, Santa Ana night. W. R. C. will entertain Daughters of Veterans and Sons of Veterans.

Saturday, Aug. 7—10 a. m., slaughter of pigs; 2 p. m., children's day exercises. Evening, American Legion night. Entertainment by Los Angeles Post, No. 8, and Victory Post, No. 54.

Sunday, Aug. 8—10 a. m., memorial exercises; sermon by Rev. C. R. Norton, chaplain; 4 p. m., dress parade. Evening, sacred and patriotic concert; G. A. R. Glee Club, under the direction of W. E. Herendeen.

Monday, Aug. 9—10 a. m., court-martial to vindicate all unconscien-

## Personals

Miss Louise Julien of Kansas City, Mo., is visiting Madam LeBlanc of 1119 South Glendale avenue.

Mr. and Mrs. C. Parker of 221 N. Central, who have been at Coronado for two weeks, will return Tuesday.

Miss Olive Pixley of 116 West Lomita avenue is spending her month's vacation at the beach.

Mrs. J. H. Orth and daughter of 153 South Central will spend next week at Ocean Park. Irene Whitaker will accompany them.

F. E. Gilman and family have been sold out of house and home and will move the first of the week from 320 Vine street to 503 Vine.

Mrs. G. E. Daniels and daughter Helen are going to Hermosa tomorrow to spend a month where they have rented a bungalow. Mr. Daniels will be with them over week-ends.

A building permit was taken out yesterday for the remodeling of the Doran Street School building, the cost to be \$300. L. L. Hugo is the contractor.

Mr. and Mrs. E. C. Silsbee of 1130 East Colorado will move to 928 N. Louise street Monday for a couple of months, after which they will go to Mountain View.

A. P. Jensen has had the sales room in front of his bakery at 519 South Brand Blvd. rearranged and repainted. The bread and pastries are now all kept behind glass.

L. F. Thiessen and family, who came here from Oshkosh, Wis., and bought a home at 617 North Louise, are taking possession this week. The sale was made by Berkebile & Stumpf.

M. H. Berry of 101 North Central has sold his home to Edgar Robinson of La Crescenta and has rented a house on North Louise for a year until he can build on his acreage in the foothills.

A new real estate firm, Lusby & Campbell, has entered the field this week. It is composed of C. D. Lusby, late of the Glendale Savings Bank, and Arthur Campbell.

Geo. Tennant, who recently bought the property at 317 East Elk avenue of Dr. D. R. Dungan, is building a 1-room addition to it. Mr. Tennant also bought the two residence properties just west of 317, but has sold one of them.

W. M. Windham and wife have moved into the residence property recently purchased of S. A. Davis at 225 South Central avenue. They came here from Hollywood, after selling their home in that beautiful suburb.

Among the immense amount of new machinery and equipment recently installed in the Henry-Brown factory a kettle weighing more than a ton was put in the past week. This is to be used for making syrups for Sierra Club beverages.

Mr. and Mrs. H. E. McCartney have sold their place at 434 Milford to a Mrs. Smith from Wheeling, West Virginia, who will occupy it with her son. The McCartneys are now living in the Rudy apartments. They expect to build two fine houses soon, one for their own occupancy.

Mrs. H. A. Strong of 336 North Louise, who is touring the East and recently wrote the Evening News from Sheldon, Iowa, sent greetings this week from Minneapolis, where she is visiting relatives and viewing the sights in that vicinity, one of the most charming being the far-famed Minnehaha Falls.

A demonstration of the Fordson tractor, set for this morning at 9:30 has been postponed till next Monday so the city manager can select the toughest, rockiest and "rootiest" vacant lot or lots in the city to work on. It is proposed to use plow, harrow and disc, pulled in turn by the tractor, just to show what it can do to aid lot owner and rancher.

I. T. Aney, the genial "jigger man" for the P. E. at the Brand and East Broadway junction, has returned from his vacation and is again on duty. "Bud" while away made a study of horticulture, the "higher ups" at the P. S. station say, and is now ready to answer any queries in this line. Mrs. Aney took more interest in feathered flying, he says. Both were glad to get home, as the state of Washington, which they visited on their trip, does not compare with California, and Glendale in particular.

Mrs. Marian Hobbs Higgins and son, Master Lawrence Higgins, of Los Angeles, were guests on Thursday of Mrs. W. E. Heald, of 308 E. Lomita Ave. Mrs. Higgins is an old friend of Mrs. Albert DeBerry, Mrs. Heald's daughter living in Texas, who is spending the summer here. Mrs. Higgins and Mrs. DeBerry have been closely associated in musical work, both in Texas, where Mrs. Higgins has spent some time, and in Los Angeles, where both have recently completed a summer course in music at the University of Southern California.

Mrs. F. B. Walker of 710 East Harvard is at Long Beach visiting with her son.

Miss Helen Wilson of 702 East Harvard has gone to the beach for a few days.

Mrs. Cassidy and two children are guests of Mrs. Dennison of East Harvard.

Henry Johnston, wife and sister spent Thursday at the beach with the Henrys, who are there for the summer.

Mrs. Geo. Phelps returned to Eugene, Oregon, the first of the week, after a visit with Mrs. H. Daugherty of 700 East Harvard.

Mr. and Mrs. V. W. Bailey, who have returned from Yosemite, where they spent their honeymoon, are going to Venice tonight and will locate at the Mildred apartments.

Ray Galvin of the Bartlett & French auto agency took his wife and child for an outing up to Big Bear yesterday. They expect to be gone several days.

Mr. and Mrs. J. F. Harden and daughter, Margaret, of 346 Vine St., in company with Dr. and Mrs. D. F. Harden of Eagle Rock, are going to Hermosa Beach tomorrow for ten days.

After three weeks of absence, Mrs. F. D. Duke and her sister, Mrs. M. L. Booker, have returned to their home in Glendale. While in Los Angeles they were the guests of their niece, Miss Miriam Crowell.

Miss Rosa Peck of 114 South Louise is home again after an extended trip East. She accompanied her aunt to Detroit, then visited in Morgantown, W. Va., and Delaware, Ohio, returning by the way of Ashland, Oregon, where a short stay was made.

The war on reckless truck drivers and others who have caused so many casualties and deaths lately by failing to stop for standing street cars is being waged relentlessly by Los Angeles authorities. Several have been arrested during the past two days and one had his license revoked for a year. Judging from the way some Los Angeles truck drivers speed up on Glendale streets, especially in the outlying districts, such action is necessary and our traffic officers are keeping a special lookout for this class.

## LEGRAND AT LARGE

P. E. STATION AGENT OFF FOR HUNTING AND FISHING

H. L. Legrand, long-time agent for the P. E. at Glendale, has been temporarily relieved of his duties in order that he may take a needed rest and vacation. J. Wilson, Jr., an old-time P. E. man, is holding down the job in his absence. Mr. Legrand and wife are this week at Avalon, fully equipped for fishing. From there they go to the Big Mountains, San Diego county. Mr. Legrand prepared himself with full mountain togs. He has the necessary equipment for shooting big animals and catching large fish; he also is supplied with poison remedies, so has no fear of snake bites or poison oak. For pastime he will make a study of zodiac-zoography. This information comes direct to the Evening News from the P. E. station.

## FAMILY REUNION

There was a reunion of the Johnston family last Tuesday at the home of Henry Johnston and wife, 111 N. Everett. Members of the family present were Henry Johnston, a widowed sister, Mrs. Hattie Johnston, who lives with him and his wife; another sister, Mrs. W. R. Reynolds of Los Angeles; a brother, James W. Johnston of Cedar Rapids, Iowa, who is here on a visit; and a half brother, Geo. J. Phelps of El Centro, who has been a guest in the Johnston home for several days. A good, old-fashioned home dinner was enjoyed by all and the day pleasantly spent in talking of the good times of past and present.

This is the first time in 25 years the five have been together. The last occasion was the funeral of their mother, in Rockford, Ill., where most of them lived at that time.

Mrs. Addie Harter and son Carl, also Tom Wallace, from Tampa, Florida, have been visiting with Mrs. Sparr at 234 South Jackson street for the past three weeks. Today W. F. Sparr, accompanied by Carl Harter, made a business trip by auto to Riverside, where Mr. Sparr has an estate. The Sparrs and their visitors are taking many pleasant sight-seeing trips over Southern California, which they are enjoying very much.

## LOWER-PRICE SALE ATTRACTIVE TO GLENDALE WOMEN

We heartily thank the women of Glendale for their response to our sale of Georgette waists at \$4.95. These blouses were offered at a price that practically eliminated all profit and the knowledge of values displayed by Glendale women in moving them out of the store was interesting, indeed. We are looking for an even greater response to our offering of wash skirts at \$3.95. In this lot are values up to \$6.50; the materials are gabardine, pique and other fine wash fabrics. Our lower-price sale which has been very successful on account of the exceptional values offered will be continued throughout August. Special prices are being made on many lines.—H. S. Webb & Co.—Adv.

The Berlin mob that attacked a lone French soldier seems to have had an overdose of courage.

Miss Marion Parker and Miss Maud Parker have bought the house at 225 North Isabel street, to which they will make extensive improvements. Miss Marion Parker is an architect from Indianapolis and Miss Maud Parker is a teacher. The sale was made through Berkebile & Stumpf.

John G. Henry and wife of Rockford, Ill., are visiting for a few days at the home of Mr. and Mrs. Henry Johnston of 111 North Everett St. They are old-time friends of the Johnstons and are enjoying the fruit, flowers and sunshine of Southern California. They will motor to Santa Barbara for the week-end where they will spend some time with a nephew of Mr. Henry's. Mr. and Mrs. Henry expect to make an extended visit in this vicinity and may make Southern California their future home.

## Health Is Possible!

Chi-ro-prac-tic takes off the brakes. Nerve pressure prevents the flow of vital force. Chi-ro-prac-tic takes away the cause—Nature then produces the desired effect. When ever vital organs work badly or you have so-called trouble with your heart, lungs, bronchial tubes, stomach, liver, kidneys, intestines, bladder, uterus, etc., Chi-ro-prac-tic has shown that the spine or back-bone is almost invariably at fault. The proof lies in the thousands of cases successfully handled by Chi-ro-prac-tic.

The quickest and safest way to overcome so-called internal bodily disturbances of any kind is by Chi-ro-prac-tic spinal adjustment to the particular joints of the backbone, which by their displaced conditions interfere with the passage of the Creator's vital force through the nerves to the particular organ concerned.

### EXTENDED TRIP

(Continued from Page 1)

other night. The next day we  
climbed the grade to Shaver Lake, at  
an elevation of 5000 feet, where the  
Edison Company has a large lumber  
camp. Then up and down and wind-  
ing in and out we finally reached the  
first real stop on our journey, Cas-  
cata or Big Creek, as it is called,  
where P. W. Frank welcomed us to  
the mountains with a good hot din-  
ner and home-made cake.

"The next day in spite of many  
warnings to the contrary we took a  
little four-mile run up to Huntington  
Lake. Four miles is not far on the  
level but when one climbs 2000 feet  
during those four miles, sensations  
are experienced of which boulevard  
travelers know nothing. It was the  
first time I ever realized that the  
auto seat had a back, for it seemed  
to be supporting more of our weight  
than the seat itself. The road was  
new, with sharp rocks and dust quite  
plentiful, and only wide enough for  
one car. The passing places were  
very few and narrow with 1000 to  
1500 feet on the off side and as  
many more up on the other side. A  
more wonderful road could not be  
imagined. There were large pine  
trees with very little underbrush, the  
ground being covered with wild flow-  
ers of every color and description,  
from the deep red snow plants and  
Indian Pink to the purple  
iris, mountain lupin, the blue lark-  
spur and the brodiaea, shooting  
stars, columbine, yellow rabbit  
brush and deep orange wall-flower.  
This flower scene will linger long in  
our memory for we were able to find  
and classify 71 different species.  
Then there were the wild fruits—  
strawberries, raspberries, blackber-  
ries, currants, gooseberries, wild  
cherries, not ripe when we were  
there but a paradise by now, surely.

"Then we reached the lake, a  
beautiful azure blue reflecting the  
floating clouds, with the white caps  
all around. In the distance was  
Kaiser Peak, or Victory Peak as it is  
now called. Many delightful side  
trips were made from Big Creek.

"Miss Broiles, who was with us,  
had a very thrilling experience  
while we were at Big Creek. She  
with little Jule and an elderly lady  
who happened to be there were bath-  
ing in the little stream which flows  
down one of the canyons from the  
Edison Company's plant No. 7. They  
were all in bathing suits leaving  
their clothing on the banks. Sud-  
denly the girls were warned by a  
scream from the lady to scramble  
out at once, which they did just in

### MANY NEW METERS

#### MONTHLY AVERAGE OF WATER AND LIGHT CONNECTIONS ABOUT SIXTY

As showing the constant increase  
in new residences and business  
houses in Glendale, the record of the  
Public Service Department for July  
is quite illuminating:  
Number water meters June 30. 4210  
Additions during July ..... 58

Total Aug. 1 ..... 4268  
Number light meters June 30. 4703  
Added in July ..... 69

Total Aug. 1 ..... 4772

Total receipts from water  
and light business for  
July ..... \$23,353.06

The monthly average of new con-  
nections for light and water is con-  
stantly growing and it is now around  
60. Nearly every connection means  
new residents so a very rapid growth  
is indicated.

The business of the last two days,  
as taken from the daily record sheet  
was as follows:

Orders to read meters—Chas.  
Evans, 123 N. Orange; L. A. Lawson,  
1501 Lorraine; Lewis Liddell, 534  
N. Kenwood; Mrs. I. Springer, 504  
Riverdale Drive; A. M. Salyer, 106  
E. Broadway; R. R. Davis, 1329 E.  
California Ave.; Mrs. Bower, 425  
Salem; S. A. Davis, 225 S. Central.

Light and water ordered turned  
off—Chas. Laubmayer, 801 E. Colo-  
rado; C. C. Parks, 231 N. Belmont;  
Mrs. West, 119 W. Palmer Ave.,  
moving to 1819 S. Brand; F. Sauter,  
637 Howard; J. A. Legge, 208 W.  
Chestnut, moving to 951 N. Louise;  
H. H. Wheeler, 830 Orange Grove  
Ave., moving to 506 E. Maple; J. M.  
Smith, 222 N. Cedar.

Orders to install light and water  
meters—Mrs. L. Lowenstein, 422 E.  
Harvard; J. F. Trueman, 6th and  
Vine Ave.; F. McG. Kelley, 544 N.  
Central; L. O. Kittredge, 559 W.  
Colorado.

Orders to turn light and water on  
—J. E. Wimmer, 312 N. Orange; J.  
E. Wilkins, 406 Salem; Miss Packer,  
208 W. Chestnut; M. M. Gale, 122 N.  
Cedar; W. D. Hargett, 630 E. Broad-  
way, upstairs.

time to avoid being swept away by a  
swiftly rushing stream of water  
which was of considerable depth.  
For some reason the Edison Com-  
pany's workers above the dam had  
decided to use less water, which  
caused it to back up and overflow  
the dam, coming down its natural  
channel. Hence the flood. The  
way of entrance being cut off by the  
stream the frightened bathers were  
obliged to climb a precipitous bank  
1000 feet high on hands and knees  
and get to camp by a circuitous  
route, arriving considerably bruised  
and scratched but safe. The next  
morning after the flood had sub-  
sided, the party went back to look  
for their clothes and strange to say re-  
covered every article except one  
stocking; fishing them out of pools  
of water and collecting them from  
many a scattered place.

"Experiencing bad weather, we  
decided to come down and go toward  
Yosemite where we camped by the  
San Joaquin river. Leaving Yose-  
mite we pursued a devious course  
due to various side trips for visiting or  
sight-seeing. Fresno, Merced, Mo-  
desto, Tracy, Oakland and Alameda  
were some of our stopping places.  
At Alameda we visited an uncle of  
Mrs. Maranville's—Frank M.  
Peebles, a noted artist, formerly of  
Chicago. At San Lorenzo we found  
cherries plentiful and reasonable in  
price and of several varieties. We  
visited eleven different missions in  
our travels and stopped awhile at  
the far-famed Santa Barbara auto  
park where we not only enjoyed  
bathing privileges ourselves, but our  
car was cleaned up, too. There  
were nearly fifty transients who  
stopped there that night to say noth-  
ing of those who were already camp-  
ing there. At 50 cents per night  
there is no doubt as to the enterprise  
being self-supporting. I, for one,  
am heartily in favor of providing  
such a parking place for tourists who  
would visit Glendale if such were  
available.

"With the prow of our good 'ship  
of the highways' turned southward  
we decided to visit the Mexican bor-  
der before returning home. We had  
a delightful run to San Diego and  
after several side trips around the  
city we went on down to Tia Juana,  
then visited relatives in National  
City, enjoying real cream from a  
ranch cow. San Juan Capistrano  
and Laguna Beach were seen, then  
we finished our vacation by camping  
in Brookside Park, while looking for  
a home to live in. We have now  
bought a lot at the corner of Cen-  
tral and Gardena avenues, where we  
expect to build a couple of houses.  
All in all we had a wonderful trip."

When Sam Gompers declares the  
railroads' trouble is inefficiency, to  
what group of the 2,000,000 em-  
ployes does he refer?

Harding and Cox have been not-  
ified of their nominations, but the  
chances are that they had previously  
received some slight intimation of  
what was in the wind.

## Modern Banking

Modern banking includes service of many kinds and this bank embraces them all. Not the least of these is the personal interest of its officers and employees.

We want you to feel that atmosphere of friendliness, the spirit of home, when you step inside our doors. We want you to feel that this is YOUR bank in every sense.

What are your special banking requirements? Can't we have the opportunity of talking the matter over with you, learning what you desire and explaining how we can serve you?

## Kitchen Conveniences

Are you a success as a housewife? Is your housekeeping on a business basis? Is your home equipped with things that will enable you to do the most work in the shortest time?

### A Fireless Cooker

saves time and worry; keeps the kitchen cool.

### A Pressure Cooker

is an economy, saving fuel, time in cooking and the expense of buying high-priced cuts of meat since cheaper ones can be cooked tender in less time.

### A Good Refrigerator

adds to the comfort of the household and is an economy in preserving food in hot weather.

## Why Belong to the Army of House Hunters? Why Not Buy a Home and Settle Down in Peace?

It's difficult to find a house for rent now. It's growing more so every day. And there is no feeling of security in a rented house. Sooner or later you must go and then the heart-breaking search for another home commences. Rents seem exorbitant for places that are in no way desirable.

This is where we step in.

# FIRE INSURANCE

## We Have Been in the Fire Insurance Business in Los Angeles County for Twenty-three Years

We have always handled non-board companies and have never had a loss that was not settled in five days after a fire.

We find at the present time that almost any man or woman can rent a hole in the wall, make connection with some insurance company and get some business. If you want to cancel your policy or transfer it, you are likely to find that they are out of business. Not a week passes but some one comes to us with a tale of woe of this kind.

Come to a legitimate office that knows the insurance business. You can cancel or transfer your policy and get your money in five minutes.

Do you look into legitimate insurance prices or are you getting robbed by paying from 25 to 50 cents more than your insurance is worth?

- We have held our prices the same for 23 years.
- We have five A-1 insurance companies.
- We have companies with assets of \$11,470,718.
- Get our rates. We carry
- Fire Insurance.
- Earthquake Insurance.
- Compensation Insurance.
- Burglary Insurance.
- Plate Glass Insurance.
- Auto Insurance.
- We write all kinds of bonds.

## USE INDEPENDENT INSURANCE, KEEP RATE LOW, PLAN

### Business Men's Cooperative Association Urges Com- bating Underwriters

Asserting that the board of fire underwriters is resorting to expedients for eliminating competition, George M. Babcock, secretary of the Business Men's Cooperative association, has addressed each member of the association, advising them to give a share of their business to independent companies in order to keep the latter in existence and prevent rates from climbing.

Mr. Babcock in this letter declares there is no advantage to be gained by insuring in a board company, and says:

"Before being admitted to California, every insurance company is required to furnish essential data to the insurance commissioner, and submit to a rigid examination of its assets and liabilities. Furthermore, they are in no instance allowed to issue policies in California until affidavits as to their sound financial condition have been made and checked by the commissioner of the state in which their charter was granted. It then becomes optional with them whether they affiliate with the board of fire underwriters or carry on their business independent of that organization.

"The question is frequently asked: What is the difference between a board and a nonboard company? There is absolutely no difference. The stability and ability to pay of every fire insurance company rests entirely upon its own financial resources. The board gives you no additional guarantees or protection in the event of loss, and each company stands alone, whether belonging to the board or not.

"The board of fire underwriters is resorting to various expedients for eliminating competition, but one method most frequently employed is through the so-called relief rate measure. An independent or non-board company may quote you a rate of \$1 as against a board rate of

\$1.25 for the same risk. This proves conclusively that the last named figure is excessive, and if you notify the board of your ability to secure a lower rate from an independent company, they will invariably take advantage of their rate measure and underbid their competitor. If you then rewrite your insurance in a board company, you strike a blow at the independent companies, and do both them and yourself a grave injustice.

"The purposes of the board are clearly shown. They intend to make it impossible for non-board companies to do business in California, force them, one by one, into their organization, and eventually be able to arbitrarily fix rates. As soon as the competitive companies are permanently disposed of, you will pay more for your insurance than ever before and will be entirely without recourse."

Mr. Babcock said yesterday that the rates of the non-board companies average from 10 to 25 per cent less than those of their competitors, not taking into account the relief of the latter. He declared that many business firms have saved hundreds of dollars by insuring with the non-board companies.

## Bakersfield Fights Higher Fire Rates

BAKERSFIELD, Feb. 2.—A fight is on here between the Bakersfield Chamber of Commerce and the local organization of the Board of Fire Underwriters of the Pacific Coast over a proposed raise in insurance rates.

Chamber of Commerce officials state that the board plans to raise rates 20 per cent, wiping out a reduction of that amount made for business district risks some time ago. Recently, it is alleged, the board has taken in its chief non-board competitors and announced its intentions of putting rates back at the old figures. Prominent merchants threaten to back a campaign of non-board companies for business in this city unless the reduction is maintained.

Nevada City, California, Papers, March 27, 1917.

## Nevada City Favors Non-Board

The City Trustees and Chamber of Commerce of Nevada City, California, have adopted resolutions urging citizens to place their fire insurance business in non-board companies because of the Pacific Board's high tariff for that city. It is claimed that the Board will grant no relief and that non-board companies have offered to write the business at 25 per cent off the schedule. A further request is made that bids be asked for by the municipal authorities on insurance covering city and country risks, and that the companies be awarded the business which offer the lowest rates.

## From Resolution of the Merchants' Exchange of Oakland, March 18, 1913

We find a large number of companies are offering insurance at much less cost to the insurer than the so-called board rates. We find the standing of these companies is first-class, and their policies are accepted as security by leading banks and loaners of money in Oakland. We find they are allowed by the Insurance Commissioner to do business, as they have his certificate entitling them to do so.

In view of these facts, your Committee recommend to the members of the Merchants' Exchange that they investigate for themselves the standing of the various companies and purchase their insurance as they do other commodities, namely, where they can secure the best rate, taking into consideration of course the quality of the goods purchased.

# ATTENTION!

To Our Many Friends and Patrons:—

We wish to thank the people of Glendale and vicinity, who so generously assisted us in the distribution of Chevrolet motor cars during the last year, which came to a close July 31. August 1 begins a new year in the auto business—a bigger and better business is our constant aim. A much larger contract in connection with receiving our cars direct from the Pacific Coast Factory at Oakland in carload lots, will enable us to make prompt deliveries of any and every model, made by the Chevrolet Motor Co.

We wish to again thank and assure the people of Glendale that they will continue to receive the same kind and considerate treatment in the future that we have given in the past. We further believe that we can give better real service right here in Glendale than is possible to get if you bought your automobile elsewhere, thereby helping to build up our own industries. Buy at home.

Very respectfully

## THE PLODDER

In those bright young days, when speaking collectively, we knew all there was worth knowing, many of us entertained the ambition to conquer the world in a brilliant manner and set the universe afire with our success. But how many of us attained that ambition?

It is the boy who was the plodder in the school room who is holding an executive position and now bosses some of the rest of us. He is the fellow who kept continually hammering at his lessons. He made haste slowly and remembered what he learned. It was not by a single stroke that he expected success to reward his efforts. It was inch by inch, step by step, round by round, that he expected to scale the ladder of attainment, and he has not been disappointed.

It is the plodder who is doing the big things in the world today. Let us learn from his example.

## DIVINE HEALING

EVANGELIST PROUT PRESENTS  
BIBLE TEACHING ON  
SUBJECT

"Beloved, I wish above all things that thou mayest prosper and be in health, even as thy soul prospereth." 3 John, 2nd verse. Physical, as well as spiritual, health is provided for in God's plan for man's uplift," said Evangelist Prout in his opening remarks Thursday evening when presenting the subject of Divine Healing.

"Sin—the transgression of God's laws, moral and physical, has filled the world with suffering and disease. 'Fools, because of their transgression, and because of their iniquities, are afflicted. Their soul abhorreth all manner of meat.' . . . Psa. 107:17. The royal road to health is obedience to the laws ordained of God for governing the body.

"Nowhere within the Bible are we assured that healing is a sure test of a genuine religion, a claim so often heard. On the contrary, the Scripture gives warning of miracles in this form, being employed for the express purpose of deceiving God's elect people. Especially is this so, in respect to the second appearing of Christ. In Matt. 24:24, the Lord foretold a marvelous manifestation of wonder-working power, and great signs, but with the intent to deceive in reference to the manner of Christ's coming, 'inasmuch that, if it were possible, they shall deceive the very elect.' Paul declares that Christ's coming is after the working of Satan with all signs and lying wonders, with all deceivableness of unrighteousness.' 2 Thess. 2:9. Undoubtedly we have reached such a time. The present age is in every way suitable for delusions and deceptions as regards religious beliefs. This is an age of wonders and expectancy as to the next great wonder. More credence is given to wonders than to the word of God. But God will demonstrate in such a time that His word is a sure foundation. The conflict will rage around the point of phenomena as opposed to faith. On this ground will be fought out the final round between the powers of good and evil. The sure test is 'To the law and to the testimony; if they speak not according to this word, it is because there is no light in them.' Isaiah 8:20. Disregard for the law of God and His word are the prevailing evils of today. Christ defeated the enemy with the use of a sword of the Spirit, which is the word of God. We can meet all deception successfully with 'it is written.' Faith must be based upon the word of God, not upon the sign of healing or any other wonder.

"But we must not therefore conclude that there is no divine healing. Cases of genuine healing and genuine miracles are being witnessed still. Provision has been made for healing the sick in the great gospel commission; but there are conditions laid down. 'If I regard iniquity in my heart, the Lord will not hear me,' said the Psalmist. Much reported healing today has no regard to removal of the cause of disease, nor obedience to the laws of God, morally or physically. Disease is induced by wrong habits of eating, drinking, and living. It amounts to presumption to ask God to heal us of infirmity, while persisting in such habits. Divine healing is limited by our attitude.

"Sometimes the rod of affliction is brought to bear upon Christians to keep them from straying. Suffering with some is the sole means of developing character, while with others, it is for God's glory. Trophimus was left sick at Miletum by Paul. It was evidently the will of God in this particular case that he be not healed, for multitudes had been restored under Paul's ministrations. 2 Tim. 4:20.

"Healing under God is never ascribed to a church. Divine healing is the result of faith when the remedy is beyond the reach of man. The Bible gives instances of the use of remedial agents to effect a cure. Even Christ made use of simple agents. Isaiah 38:21, 22; John 9:15. Many with simple faith in God, and His laws, and by intelligent cooperation in the use of remedial agents provided in nature receive the benefit and blessing of divine healing, equally with others who may in God's appointed way call for the elders, and by united prayer and anointing be restored immediately to health. Submission to the will of God is the pre-requisite of all divine healing, along with the confession and forsaking of all known sin. James 5:14."

"Spiritual Gifts in the Church" is the topic for tonight's meeting.

## THEY ALL COME BACK

U. H. GOWEN AND WIFE, FORMER RESIDENTS, AGAIN LIVING HERE

U. H. Gowen, wife and daughter, who live at 518 Oak street, were residents of Glendale for several years until last fall, when they sold their property at 310 North Kenwood and went to Ocean Park to spend the winter. This city still had its attractions for them, however, and when S. H. Waller bought him a brand new residence on West Broadway and the property on Oak was put on the market, Mr. Gowen bought it. There is a cosy 5-room house, a garage and three good lots, two of them vacant as to buildings but very much occupied as to garden. Mr. Gowen is originally from the state of Maine, his home having been near Bangor, and he has a strong liking for good old Maine sweet corn, which, as every householder knows, is the best corn put up in cans. Wherever he is located Mr. Gowen raises Maine sweet corn, getting the pure seed direct from the old home when he runs out. He raised a fine patch of it this summer, several patches, rather, planting it at intervals, and his neighbors had a chance to know just how his favorite "roast'n ears" tasted, right from the stalk.

Skirts will not be shorter, says a fashion note, and man is disappointed again.
